

Yousu PP 3D FILMAENT  
Guangzhou Yousu 3D Technology Co., Ltd

Revision Date: 23/03/2022  
Version: 1.0

## 1. PRODUCT AND COMPANY IDENTIFICATION

### Product identifier

Product name : YOUSU PP 3D FILMAENT  
Product code YS-PP

### Recommended use of the chemical and restrictions on use

<b>Details of the supplier of the safety data sheet</b> Guangzhou Yousu 3D Technology Co. Ltd. 4th Floor, Building B, Chuangtian Industrial Park, Lanshan Village, Xiancun Town, ZengCheng District, Guangzhou, Guangdong, China	<b>Emergency telephone number</b> +86-20-32093406  <b>Website</b> <a href="http://www.ysfilament.com">http://www.ysfilament.com</a>  <b>Email</b> sales@ysfilament.com
--	---

Identified use : Thermoplastics which can be used for 3D printing

## 2. HAZARD IDENTIFICATION

### GHS Classification

This material is not considered hazardous under the OSHA Hazard Communication Standard (HazCom 2012).

### GHS label elements

Hazard Statement: None required  
Precautionary Statement: None  
Signal word: None  
Pictogram: None

### Other hazards

If small particles are generated during further processing, handling, or by other means, combustible dust concentrations in air may form. See Section 7 and 8 for additional information.

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

### Hazardous components

Chemical name and CAS	Content %	OSHA Exposure Limits:	ACGIH Exposure Limits:
Polypropylene CAS NO:25085-53-4	>95	None	None
Additive	<5	None	None

## 4. FIRST AID MEASURES

If inhaled	: Essentially no fumes will be released from heated material, if respiratory irritation occurred immediately remove a person to fresh air and consult a doctor.
In case of skin contact	: Contact with heated material, rinse the skin with water and soap for at least 15 minutes. If symptoms persist, consult a doctor.
In case of eye contact	: Contact with material, rinse opened eye for at least 20 minutes with plenty of water. If symptoms persist, consult a doctor.
If swallowed	: Inhalation, ingestion or skin contact with the substance may cause delayed reaction, so as to ensure that medical personnel understand the personal protection knowledge related to the substance and attention to self-protection.
Notes to physician	: Treat symptomatically.

## 5. FIREFIGHTING MEASURES

Suitable extinguishing media	: Foam, Water, Carbon dioxide (CO <sub>2</sub> ), Dry chemical, Alcohol resistant foams are preferred if available. General-purpose synthetic foams (including AFFF) or protein foams may function, but much less effectively.
Specific hazards during firefighting	: Do not allow run-off from fire fighting to enter drains or water courses.
Hazardous combustion products	: Burning produces carbon monoxide (CO)
Specific extinguishing methods	: Product is compatible with standard fire-fighting agents. Remove the flammability.
Under fire conditions	: Cool containers / tanks with water spray. Water mist may be used to cool closed containers. Fine dust dispersed in air may ignite. Risks of ignition followed by flame propagation or secondary explosions shall be prevented by avoiding accumulation of dust, e.g. on floors and ledges.
Special protective equipment for firefighters	: As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

## 6. ACCIDENTAL RELEASE MEASURES

- |   |   |   |
|---|---|---|
| Personal precautions, protective equipment and emergency procedures | : | Use personal protective equipment. Avoid contact with skin and eyes. Avoid dust formation. Remove all sources of ignition. Sweep up to prevent slipping hazard. |
| Environmental precautions   | : | Do not flush into surface water or sanitary sewer system. Do not allow material to contaminate ground water system.   |
| Methods and materials for containment and cleaning up               | : | Clean up promptly by scoop or vacuum. Sweep up and shovel into suitable containers for disposal.  |

## 7. HANDLING AND STORAGE

- |                             |   |   |
|-----------------------------|---|---|
| Advice on safe handling     | : | Use personal protective equipment. Avoid contact with skin and eyes. Low hazard for usual industrial or commercial handling. Workers should be protected from the possibility of contact with molten material during fabrication. Avoid dust formation. If small particles are generated during further processing, handling, or by other means, combustible dust concentrations in air may form. |
| Conditions for safe storage | : | Store at cool, ventilated cool and ventilated place. Keep away from kindling and heat source. Store separately from oxidant. Equipped fire-fighting equipment.  |
| Materials to avoid          | : | Strong oxidant.   |

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

- |                                      |   |   |
|--------------------------------------|---|---|
| <b>Engineering measures</b>          | : | Where reasonably practicable this should be achieved by the use of local exhaust ventilation and good general extraction. Provide appropriate exhaust ventilation at places where dust is formed.   |
| <b>Personal protective equipment</b> |   |   |
| Respiratory protection               | : | Respirator must be worn if exposed to dust. Wear respirator with dust filter. Consult an industrial hygiene professional prior to respirator selection and use. Use a positive-pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air-purifying respirators may not provide adequate protection. |
| Eye protection                       | : | Safety glasses with side-shields. Goggles.  |
| Skin and body protection             | : | Impervious clothing.  |
| Hygiene measures                     | : | Observe good industrial hygiene practices. Avoid contact with skin, eyes and clothing.  |

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Physical state	: Solid
Odour	: None
Diameter	: 1.75mm
Melt point	: 220-240℃
distortion temperature	: 80-100℃
Density	: 0.91-0.95g/cm <sup>3</sup>
Water solubility	: Insoluble

## 10. STABILITY AND REACTIVITY

Reactivity	: None expected under conditions of normal use.
Chemical stability	: Stable under recommended storage conditions.
Possibility of hazardous reactions	: Product will not undergo hazardous polymerization.
Incompatible materials	: Strong oxidant
Hazardous decomposition products	Burning produces obnoxious and toxic fumes, carbon monoxide (CO), carbon dioxide (CO <sub>2</sub> ).

## 11. TOXICOLOGICAL INFORMATION

Information on likely routes of exposure	: Inhalation Skin contact Eye Contact Ingestion
--	--

### Acute toxicity

There were no target organ effects noted following ingestion or dermal exposure in animal studies.

### Skin corrosion/irritation/

Product dust may be irritating to eyes, skin and respiratory system.

### Serious eye damage/eye irritation

Product dust may be irritating to eyes, skin and respiratory system. Resin particles, like other inert materials, are mechanically irritating to eyes..

### Respiratory or skin sensitisation

Product dust may be irritating to eyes, skin and respiratory system.

### Germ cell mutagenicity

Not mutagenic in AMES Test..

### Carcinogenicity

None of the components of this product are listed as carcinogens by IARC, NTP, or OSHA.

### Reproductive toxicity

No data is available on the product itself.

Yousu PP 3D FILMAENT  
Guangzhou Yousu 3D Technology Co., Ltd

Revision Date: 23/03/2022  
Version: 1.0

**STOT - single exposure**

There were no target organ effects noted following ingestion or dermal exposure in animal studies.

**STOT - repeated exposure**

There were no target organ effects noted following ingestion or dermal exposure in animal studies.

**Aspiration toxicity**

Inhalation of dust may cause shortness of breath, tightness of the chest, a sore throat and cough.  
Burning produces irritant fumes.

## 12. ECOLOGICAL INFORMATION

**Ecotoxicity****Product:**

Ecotoxicology Assessment

Acute aquatic toxicity : /

**Persistence and degradability**

Inherently biodegradable under industrial composting conditions

**Bioaccumulative potential**

Not expected to bioconcentrate or bioaccumulate.

## 13. DISPOSAL CONSIDERATIONS

**Disposal methods**

General advice : In accordance with local and national regulations. Should not be released into the environment. Do not contaminate ponds, waterways or ditches with chemical or used container. Contact manufacturer.

Contaminated packaging : Empty containers should be transported/delivered using a registered waste carrier to local recyclers for disposal.

## 14. TRANSPORT INFORMATION

## 15. REGULATORY INFORMATION

**SARA 311/312 Hazards** : No SARA Hazards  
**SARA 313** : This material does not contain any chemical components with  
**Component(s)SARA 313** known CAS numbers that exceed the threshold (De Minimis)  
reporting levels established by SARA Title III, Section 313.

**California Prop 65** This product does not contain any chemicals known to State  
of California to cause cancer, birth defects, or any other  
reproductive harm.

**The components of this product are reported in the following inventories:**

TSCA : On TSCA Inventory  
DSL : All components of this product are on the Canadian DSL  
AUSTR : On the inventory, or in compliance with the inventory  
ENCS : On the inventory, or in compliance with the inventory  
KECL : On the inventory, or in compliance with the inventory  
PHIL : On the inventory, or in compliance with the inventory  
IECSC : On the inventory, or in compliance with the inventory

### **Inventories**

AICS (Australia), DSL (Canada), IECSC (China), REACH (European Union), ENCS (Japan), ISHL  
(Japan), KECI (Korea), NZIoC (New Zealand), PICCS (Philippines), TCSI (Taiwan), TSCA (USA)
